

# Tshepo Moshole

## OBJECTIVE

I am a Software Developer who has spent countless hours coding, debugging, and collaborating with cross-functional teams to design and implement simple to complex software systems, utilizing a wide range of programming languages and frameworks, while also staying up to date with the latest industry trends and best practices, all with the ultimate goal of delivering high-quality, user-friendly software that meets the needs of both clients and end-users.

## EXPERIENCE

### Senior Frontend Developer Freelance

GrowSpace

Jan 2024 - Current

#### Duties:

Built a static WordPress website. Building frontend pages for a recruitment site using react in typescript and tailwind.css for styling. Collaborating with a team of developers using GitHub. The site has talent, talent seeker and admin views.

### Software Developer Team Lead

EdHost

June 2023 - Current

#### Duties:

I work with a team to develop and maintain dynamic web and mobile applications using React, React Native, and Next.js. I leveraged TypeScript and JavaScript to implement efficient state management and data fetching strategies. As a team lead, I provided technical guidance, conducted code reviews, and fostered a collaborative environment to ensure successful project delivery.

### Software Developer

Cathel Tech

Oct 2022 - May 2023

#### Duties:

Worked as a full-stack developer, I created comprehensive web solutions using React.js, HTML, CSS, Typescript, and backend technologies. I focus on responsive design to ensure seamless user experiences across devices and leverage strong client communication skills to deliver tailored and effective web and mobile solutions.

#### Reason for leaving:

Contract ended

### Software Developer

Q LINK Holdings (Pty) Ltd

May 2021 – Aug 2022

#### Duties:

Worked on an in-house intranet web application.

->Creating Backend Application and REST API using PHP Laravel.

->Creating Frontend components using Vue.js and Quasar framework.

->Testing API using Postman.

->Collaborating with team members using GitLab.
