Professional Summary

Senior Software Engineer with 6+ years of experience delivering enterprise web and mobile applications using React, React Native and TypeScript. Experienced leading engineering teams, designing scalable frontend architecture, building offline-first mobile applications, integrating secure REST APIs and shipping production software to the Apple App Store and Google Play. Strong background in Azure, Azure DevOps, CI/CD, AWS, Agile delivery and cross-functional collaboration. Passionate about writing maintainable, testable software and using AI-assisted development responsibly to accelerate delivery while maintaining engineering quality.

Core Technologies

React • React Native • TypeScript • JavaScript • Next.js • Tailwind CSS • Azure • Azure DevOps • GitHub • GitHub Actions • CI/CD • REST APIs • Realm • Mobile Architecture • Offline-first Apps • AWS • PHP Laravel • Vue.js • Quasar • WordPress • Agile • Scrum • Technical Leadership

Professional Experience

Senior Frontend Developer | DataBalk
Mar 2025 – Present

Lead development of a cross-platform enterprise inspection platform using React Native and TypeScript.

Designed scalable mobile architecture supporting offline-first workflows, Realm local persistence and secure REST API integrations.

Improved production stability through performance optimisation, crash analysis and platform-specific debugging.

Translate business requirements into scalable technical solutions while mentoring developers and conducting code reviews.

Manage App Store and Google Play releases and collaborate in Agile cross-functional teams.

Senior Frontend Developer | GrowSpace
Jan 2024 – Mar 2025

Built React and TypeScript applications with Tailwind CSS and integrated backend APIs.

Delivered WordPress websites and deployed backend services on AWS.

Owned planning, code reviews and production deployments.

Software Developer Team Lead | Edhost
Apr 2023 – Jan 2025

Led frontend development across React, React Native and Next.js projects.

Mentored developers, reviewed pull requests and improved engineering standards.

Built reusable frontend components and API integrations.

Software Programmer | Q LINK Holdings
May 2021 – Aug 2022

Developed Laravel REST APIs and Vue.js/Quasar frontend applications.

Worked with GitLab and Postman in collaborative Agile teams.

Certifications

Microsoft Certified: DevOps Engineer Expert (AZ-400)

Microsoft Certified: Azure Developer Associate (AZ-204)

Microsoft Azure Fundamentals (AZ-900)

AWS Developer Associate

Education

Bachelor of Science in Computer Science (In Progress) – University of South Africa

Systems Development – WeThinkCode

Selected Achievements

Enterprise mobile architecture for property inspection platform supporting offline operations.

Led engineering teams and code reviews across multiple commercial software projects.

Experience across Azure, AWS and modern frontend engineering practices.
